FELDDEFINITION

Statement relating to the publication, printing, distribution, issue, release, or production of a work.

Information in field 264 is similar to information in field 260 (Publication, Distribution, etc. (Imprint)). Field 264 is useful for cases where the content standard or institutional policies make a distinction between functions.

■ INDIKATOREN

Erster Indikator: Sequence of statements

- *Nicht anwendbar/Keine Angaben vorhanden/Frühester bekannter Verlag*

Used when a resource is first cataloged. Information given in value □ is not changed (unless incorrect or earlier issues of a serial are later available with differing publishing information). Defined as "No information provided" for monographic works that are complete as first issued.

2 Intervening

Used when the place of production, publication, distribution, manufacture or the name of the producer, publisher, distributor, manufacturer changes. Additional production, publication, distribution, manufacture statements between the earliest and latest may also be recorded with first indicator value 2.

3 Current/latest

Used when the name of the producer, publisher, distributor, manufacturer changes, or when the place of production, publication, distribution, manufacture associated with the earliest statement changes. The current statement may be added with first indicator value 3. Data given in a subsequent statement can be changed to reflect the current information when only the earliest and most current data is needed.

Zweiter Indikator: Function of entity

0 Entstehung

Field contains a statement relating to the inscription, fabrication, construction, etc., of a resource in an unpublished form.

1 Veröffentlichung

Field contains a statement relating to the publication, release, or issuing of a resource.

2 Vertrieb

Field contains a statement relating to the distribution of a resource.

3 Herstellung

Field contains a statement relating to the printing, duplicating, casting, etc., of a resource in a published form.

4 Copyright-Datum

Field contains a date associated with a notice of protection under copyright or a similar regime. Copyright dates include phonogram dates (i.e., dates associated with claims of protection for sound recordings).
